

Membership

The Houston Photochrome Club is a very inclusive group. We like having visitors. In fact, visitors are always welcome to attend our meetings, workshops or field trips. However, we require that one must be a member to enter images into our competitions.

Since images are to be emailed by the Saturday prior to each meeting, a new member joining at a monthly meeting will not be able to see their digital photography in our competition until the following meeting.

As for our dues, our membership fee structure is as follows:

\$35 per year for individual membership

\$25 per year for student membership

(high school level or below)

Dues for new members are pro-rated on a semi-annual basis. Dues for membership renewals are due in January each year.

For membership, our club only requires a simple form to be completed, payment of dues and an interest in photography.
